Agreed upon activities and task assignments:

- Climate Library. Bob will work with Niki and Jacob and have a recommendation for the next meeting.
- Climate Mitigation / Co-Benefits Opportunities Paper – Bob have a recommendation for October meeting.
- Webinars
    - Co-Chairs Webinar (Policy Committee's Climate Change Direction). Bill Nechamen will have a date, and commitments by next meeting.
    - Mapping Webinar. Bob will work with Shanna and have recommendation for next meeting.
    - HAZUZ Webinar. Bob will work with Stephen.
    - Adaptation webinar - Discussion postponed until October meeting
- Taskforce becoming a Steering Committee - Chad will discuss change with Board and contact Bob with recommendations.
- ASFPM Annual conference. Alternatives to be determined an October meeting.

- Early bird session - Schedule a Climate early bird session for Thursday morning – Bob will work with Meg
- Committee meetings - Have Taskforce members lead climate focused discussion within Committee meetings. All
- Abstracts - Help ASFPM review abstracts addressing climate change. All
- Climate Change track – This was discussed and those present felt that a track was not possible for this coming conference.

Next meeting:

Next meeting will be at 9:00a PST October 20th . Click here for link.

Related Background material from previous taskforce meetings:

1. ***Co-Chair Webinar*** – Claire and Bill
    a. The Webinar was set for the end of the month but was found to compete with other ASFPM activities and was postponed. Claire and Bill are trying to find a new date before the Conference.
    b. Announcement Draft:
        i. Webinar Title: Climate Change Influences on ASFPM Committee Work Programs.
    c. Please join our webinar presenting how climate change is being addressed by select ASFPM committees - Social Justice Task Force, Mapping, Coastal, Natural and Beneficial Functions, and Floodplain Regulations Committees.
    d. The webinar will be held from 3:00 PM to 4:30 PM Eastern Time on March 29. It will devote 15 minutes to each Committee. Breakout room discussions will follow.
    e. The ASFPM Climate Change Task Force explores the relationship between climate change and escalating flood risk. The topic cuts across all of the ASFPM policy committees.
    f. We look forward to your participation.

2. ***Mapping webinar*** – Date set for September
    a. Description of the webinar has been developed.
    b. Title: Mapping Climate Changes: Opportunities and Challenges.
    c. Objective:
        i. At the end of the Webinar participants will be able use a future conditions mapping tool, and describe advantages and limitation.
    d. Problem / Opportunity (suggested):

i. How can future conditions, mapping be illustrated as to better assist planning and regulation.

e. Attendees: ASFPM committee members
f. Format: Panel led by a moderator and three panelist.
    i. First panelist would present of mapping tool illustrating future conditions. Questions to discuss may include the level of coarseness needed? How the time intervals would reflects level of risk tolerance.
    ii. A second panelist will lead a discussion on how information may assist regulation, budgeting…
    iii. A third panelist will present infrastructure implications.

3. ***Adaptation webinar:***
    a. Title: Adapting to a changing climate case studies – Hillsborough County, Charlotte County, FL, and Tampa
    b. Discussion Material - . Charlotte Density Transfer, Hillsborough County Post Disaster Redevelopment Plan
        i. Format – panel
        ii. Moderator (possibly Dave Carlton) and representatives from each community Claire and Eugene will be responsible for panelists.
        iii. Outcome – At the end of the webinar, participants will have a working knowledge of such tools as the creation of Priority Development Areas, Density Transfers….
        iv. Lead: Claire
        v. Date: Sometime in October.

4. ***HAZUS Webinar*** – how to incorporate climate scenarios
    a. Stephen will the work with users group. Maybe use a case study such as Mexico Beach. Maybe present ways to incorporate CC scenarios. Currently process is intense but achievable.
    b. Format consists of a panel, with Stephen as the moderator.
    c. Lead: Stephen
